The Community Based Care Plan for Your Pet

- Share costs with the community and save money on total cost of care.
- Know exactly where your pledge goes — to who and for what it is being used for.
- Use our database to research and compare providers, services, and medications before you visit a vet.
- Connect with your fellow pet owners — share stories and advice about pet care, training, and everything in between.

Subscribe

It's 100% free to sign up! You only pay \$10 a month when your group starts sharing the care. Compare that with monthly insurance premiums, often 4-5 times as much.

Pledge

Our members maintain a pledge account of \$48 in a secure and private digital wallet. Eusoh evaluates reimbursement requests and draws modest amounts only when needed.

Receive

When our pets need care, eusoh is here to help. Simply submit a reimbursement request and our community kicks in.

Pet Lovers Love Eusoh

“ I get to help out folks in my group and my cost never goes over the designated amount. It's a win-win.

Tracey Childs, M.D.
★★★★★

“ I can pay hundreds of dollars for insurance I hope to never use or I can pay less to join Eusoh and know where that money is going.

Michael Akiva
★★★★★

Frequently Asked Questions

What is eusoh?

eusoh is a Crowd-Sharing platform for costs only IF and AFTER they happen. Think of it as crowd-funding on steroids. eusoh has considered all the necessary steps to make crowd-sharing practical as a solution and provides a seamless interface to its users. We're saying to one another, "Hey, if we share these costs, they'll be easy for all of us to pay, and we'll all have each other's back!"

Is eusoh insurance?

No. We are not insurance and we don't pretend to be. Insurance companies collect premiums in advance for risk. Insurance companies manage risk. We don't manage risk. We share known expenses.

What does that mean?

Believe it or not, insurance companies are fully funded by their members' monthly premiums. These premiums cover not only other members' costs, but also contribute to the bloat in the system. eusoh's founder, a physician himself, took a step back and said, "What really matters and how do I make this better?" ... and eusoh was born. The way we do things is very different, but the overall effect is a HUGE saving in costs.

How are costs shared?

As a member, you form or join a group, which is your eusoh community. In your group, you can chat with one another, give suggestions for treatments and providers to see (or avoid!). You can wish one another good thoughts when ill. Day-to-day routine costs are shared within your group. Should the costs get more expensive, the system brings more members in as needed to help share at a reasonable cost to you.

Let's Outsmart Pet Insurance

eusoh helps loving pet owners build communities to share the cost of care. Sign up today!
